

Tamworth Castle

16th March 2026

Today we visited Tamworth Castle. We had a brilliant day learning about the importance of the Castle and the Anglo-Saxon kingdom of Mercia.

Once we had our briefing, we split into class groups and explored the castle grounds and completed workshops with the lovely staff. We learned about the archaeological finds found in and around the castle, how science helps identify the items and what we can learn about the Anglo-Saxons and Vikings from the evidence.

Our second workshop focused on the battle armour and strategy of both Anglo-Saxons and Vikings.
